

# Sierra Williams

Web Developer

Kelowna, BC • williamssierra90@gmail.com • (250) 488-7952 • github.com/sierrawilliams

## Summary

Enthusiastic and detail-oriented web developer with hands-on experience in HTML, CSS, JavaScript, React, and responsive design. A quick learner passionate about creating user-friendly, accessible, and visually appealing websites.

## Technical Skills

- Languages: HTML5, CSS3, JavaScript, Python
- Frameworks: React, Node.js
- Tools: Git, GitHub, VSCode, Chrome DevTools
- Other: Responsive Web Design, SEO Basics

## Projects

### Portfolio Website – Personal Project (2023-2024)

Built a mobile-responsive portfolio to showcase web development projects using HTML, CSS, JavaScript, and React.

### Admin Panel – UBCO (2023)

Worked in a team to develop an admin panel interface for a rental application using React, JavaScript, CSS, and HTML, with responsive views, login ability, interchangeable widgets, and downloadable statistics.

## Education

### Bachelor's in Computer Science – University of British Columbia (2019–2023)

Completed coursework in front-end development, user experience design, and full-stack web programming.

## Experience

### Web Designer – Three West Security (July 2025 – Current)

Alter and maintain website to clients standards.

### Web Designer – The Lodging Company (Feb 2025 – Current)

Assisted with front-end bug fixes, QA testing, and contributed to UI/UX improvements on live websites, as well as developed new designs for new sites.

**Web Developer – Okanagan Inclusion (Nov 2023 – Current)**

Designed and developed an interactive and responsive website using React, HTML, JavaScript, and CSS. Currently host and maintain this site as clients needs change.
